31 Universal Wheel Balancing Adaptor

Weight:
5.00kg

Code No.
110040UA

Material : Special Steel.

Finish : Nickel Plating.

Use : Standard centering device to balance rims without central hole.
Suitable for 36 / 38 / 40 mm shaft dia.
Valid for rims with 3, 4, 5 & 6 screws.

1 Clamp for Measuring Head of Wheel Alignment M/c Four Point with PUSH TYPE Fingers (Claws) - Passenger Car/Truck / Buses

Rim Size:	Bore Size:	Weight:	Code No.
12" to 25"	15mm, 16mm, 20mm	3.500kg	551024

Use : For holding sensors of Wheel Alignment Machine.

Packing : Two pieces packed in thermocol box and cardboard box to prevent damage in transit.

2 Clamp for Measuring Head of Wheel Alignment M/c Four Point with THREADED Fingers (Claws) - Passenger Car/Truck / Buses

Rim Size:	Bore Size:	Weight:	Code No.
12" to 25"	15mm, 16mm, 20mm	3.500kg	5521024

Use : For holding sensors of Wheel Alignment Machine.

Packing : Two pieces packed in thermocol box and cardboard box to prevent damage in transit.

3 Clamp for Measuring Head of Wheel Alignment M/c Four Point with PUSH TYPE Fingers (Claws) - Passenger Car

Rim Size:	Bore Size:	Weight:	Code No.
9" to 20"	15mm, 16mm	3.000kg	550184

Use : For holding sensors of Wheel Alignment Machine.

Packing : Two pieces packed in thermocol box and cardboard box to prevent damage in transit.

4 Clamp for Measuring Head of Wheel Alignment M/c Four Point with PUSH TYPE Fingers (Claws) - Truck / Buses

Rim Size:	Bore Size:	Weight:	Code No.
9" to 26"	15mm, 16mm	3.500kg	550244

Use : For holding sensors of Wheel Alignment Machine.

Packing : Two pieces packed in thermocol box and cardboard box to prevent damage in transit.

5 Clamp for Measuring Head of Wheel Alignment M/c Four Point with PUSH TYPE Fingers (Claws) - Passenger Car / Truck / Buses

Rim Size:	Weight:	Code No.
12" to 24"	4.500kg	5531024

Use : For holding sensors of Wheel Alignment Machine.

Packing : Two pieces packed in thermocol box and cardboard box to prevent damage in transit.

6 Wheel Alignment Clamp (5 PIN)

Bore Size:	Weight:	Code No.
15mm	4.400kg	5541024

Material : Aluminum Casting with red Powder Coating.

Use : Used especially for alignment of Mercedes / BMW / Audi.

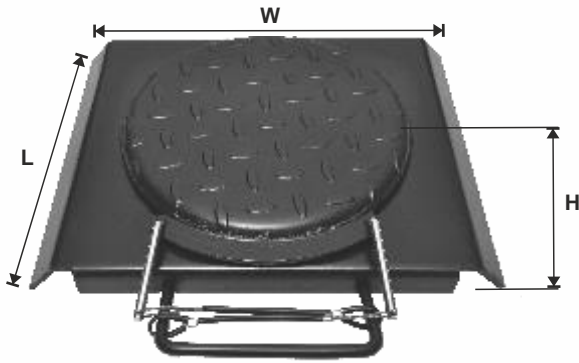

7 Wheel Alignment Clamp (5 PIN)

Length:	Dia:	Weight:	Code No.
48mm	12mm	30gms	550127

8 Mechanical Turn Table

Dia (Top Plate): 275mm	Weight: 9.00 kg	Code No. 1100017
----------------------------------	---------------------------	----------------------------

Size : L-320mm, W-400mm, H-50mm

Capacity: 1000kg each.

Material : Made from heavy duty Steel Sheet. Black Powder Coated to prevent rusting. Steel Balls (Ø15mm) used in Plastic cage.

Use : Used for easy turning of tyre left / right during alignment of the Passenger Car.

9 Mechanical Turn Table with Scale

Dia (Top Plate): 310mm	Weight: 9.240kg	Code No. 1100117
----------------------------------	---------------------------	----------------------------

Size : L-380mm, W-350mm, H-45mm

Capacity: 1000kg each having scale of +0°-60°

Material : Made from heavy duty Steel Sheet. Steel Balls (Ø15mm) used in Plastic cage.

Use : Used for easy turning of tyre left / right during alignment of the Passenger Car.

10 Mechanical Turn Table with Scale

Dia (Top Plate): 350mm	Weight: 12.440kg	Code No. 1100817
----------------------------------	----------------------------	----------------------------

Size : L-370mm, W-370mm, H-50mm

Capacity: 1500kg each having scale of +0°-60°

Material : Made from heavy duty Steel Sheet. Electroplated to prevent rusting. Steel Balls (Ø12mm) used in Plastic cage.

Use : Used for easy turning of tyre left / right during alignment of the Passenger Car.

11 Mechanical Turn Table for Passenger Car with Scale, Ramp & Centre Line

Dia (Top Plate): 350mm	Weight: 18.860kg	Code No. 1101017
----------------------------------	----------------------------	----------------------------

Size : L-370mm, W-670mm, H-53mm

Capacity: 1500kg each having scale of +0°-60°

Material : Special Steel. Electro Less Plating. Steel Balls (Ø12mm) used in Plastic cage.

Use : Used for easy turning of tyre left / right during alignment of the Passenger Car. Ramp is made on Turn Table 1100817.

12 Mechanical Turn Table with Scale & Rubber Stoppers (Light Weight)

Dia (Top Plate): 350mm	Weight: 6.220kg	Code No. 1101317
----------------------------------	---------------------------	----------------------------

Size : L-395mm, W-395mm, H-50mm

Capacity: 1500kg each having scale of +0°-60°

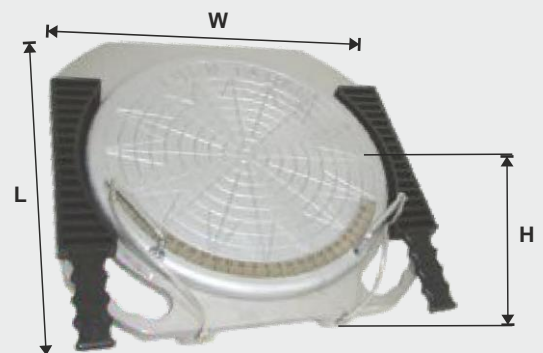

Material : Made from special grade of Aluminum. Steel Balls (Ø10mm) used in Plastic cage.

Use : Used for easy turning of tyre left / right during alignment of the Passenger Car.

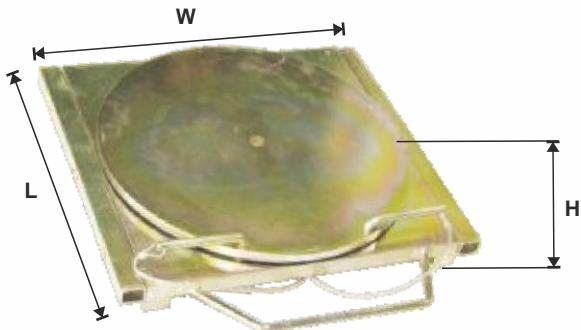

Rubber Stoppers Only (For Turn Table 1101317)

Qty: Set of 2pcs	Weight: 153gms per pc.	Code No. 1101317RS

Dia (Top Plate):	Weight:	Code No.
350mm	27.260kg	1100217

Size : L-350mm, W-400mm, H- 50mm

Capacity: 2500kg each.

Material : Special Steel. Zinc Plating. Steel Balls (Ø12mm) used in Steel cage.

Use : Used for easy turning of tyre left / right during alignment of Light Commercial Vehicles.

14 Mechanical Turn Table with Rubber Stoppers

Dia (Top Plate):	Weight:	Code No.
360mm	15.180kg	1100917

Size : L-400mm, W-470mm, H-50mm

Capacity: 1500kg each.

Material : Special Steel. Zinc Plating. Steel Balls (Ø12mm) used in Plastic cage.

Use : Used with 3D Wheel Alignment Machines for easy turning of tyre left / right.

Rubber Stoppers Only (For Turn Table 1100917)

Qty:	Weight:	Code No.
Set of 2pcs	2.600kg per pc.	1100917RS

Size : L-540mm, W-90mm, H-50mm

15 Mechanical Turn Table for Truck / Buses (Light Weight)

Dia:	Weight:	Code No.
400mm	6.600kg	1101417

Thickness: 18mm

Capacity: 6000kg each.

Material : Made from special grade of Aluminum. Powder Coating Steel Balls. (Ø10mm).

Use : Used for easy turning of tyre left / right during alignment of Light Commercial Vehicles.

16 Mechanical Turn Table for Truck / Buses with Scale

Dia (Top Plate):	Weight:	Code No.
480mm	45.000kg	1100317

Size : L-480mm, W-480mm, H-74mm

Capacity: 7000kg each having scale of $\pm 0^\circ - 60^\circ$

Material : Made from Cold Roll (CRC) Steel Sheet. Plastic Balls. (Ø18mm) used in Plastic cage.

Use : Used for easy turning of tyre left / right during alignment of Truck / Buses.

17 Mechanical Turn Table for Truck / Buses with Scale, Ramp & Centre Line

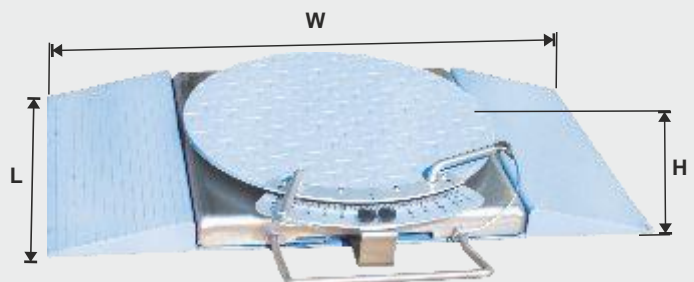

Dia (Top Plate):	Weight:	Code No.
480mm	63.390kg	1101117

Size : L-480mm, W-881mm, H-79mm

Capacity: 7000kg each having scale of $\pm 0^\circ - 60^\circ$

Material : Special Steel. Plastic Balls (Ø18mm) used in Plastic cage.

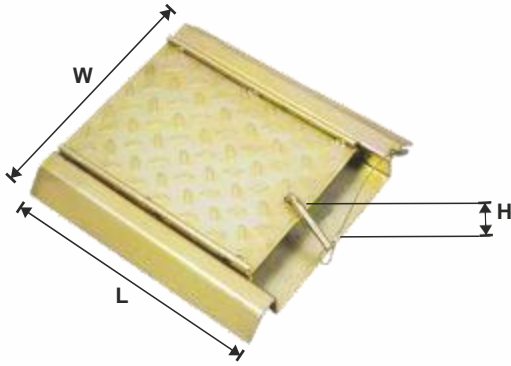

Use : Used for easy turning of tyre left / right during alignment of Truck / Buses. Ramp is made on Turn Table 1100317.

18 Wheel Alignment Turn Table Rebuild Kit (Standard)

Weight:
455gms **Code No.**
1105417

The Kit contains the following items :

	Qty
• 9/16" Derlin Bearings	54 No.
• Stainless Steel Lock Pins	4 No.
• Retainer Rings with Spring assemblies	2 No.
• Steel Set Screws	2 No.
• Steel Top Screws	2 No.

Material : The Retainer Rings are made from Nylon Plastic.

Note : Retainer Ring Inner Dia : 5 7/8", Outer Dia : 7 3/4".

19 Rear Wheel Alignment Slip Plate

Top Plate Length: 300mm **Weight:** 9.000kg **Code No.** 1130017

Size : L-350mm, W-340mm, H- 50mm

Capacity: 1000kg each.

Material : Sheet Metal.

Use : Used for aligning the rear wheel of Passenger Car.

20 Rear Wheel Alignment Slip Plate

Top Plate Length: 1520mm **Weight:** 100.000kg **Code No.** 1168017

Size : L-1640mm, W-670mm, H- 50mm

Capacity: 2500kg each.

Material : Sheet Metal.

Use : Used for aligning the rear wheel of Passenger Car.

21 Brake Pedal Depressor

Length:	Weight:	Code No.
755mm	900gms	111184
740mm	915gms	111384

Use : Depresses brake while doing alignment. All metal parts are electroplated.

22 Steering Wheel Holder

Length:	Weight:	Code No.
430mm	1.210kg	112184
315mm	675gms	112284

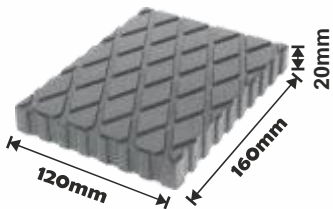

Use : It securely holds the steering wheel in position when setting toe angle. Covered with soft Plastic to prevent damage to the steering wheel.

23 Steering Wheel Holder with Thumb Lock Release

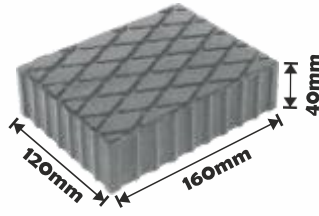

Length:	Weight:	Code No.
300mm	695gms	112384

Use : It securely holds the steering wheel in position when setting toe angle. Works with a trigger controlled mechanism. Ergonomically designed with a thumb lock release.

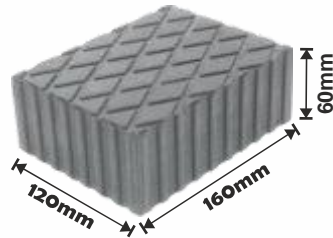

Note : The Steering Wheel Holder 112384 is suitable for Car/Truck/Buses.

Size:	Weight:	Code No.
110mm (4")	25gms	220714

Material : Nylon Plastic.

9 Tyre Lever

Size:	Weight:	Code No.
200mm (8")	240gms	222001
300mm (12")	385gms	223001
400mm (16")	630gms	224001
400mm (16")	375gms	220404

Material : Forged Chrome Vanadium Steel, hardened & tempered.

Finish : Sand Blasted surface with Nickel Chrome Plating.

Use : Used for Motorcycle / Scooter tyre service.

10 Tyre Lever

Type:	Size:	Weight:	Code No.
With Boot	500mm (20")	800gms	220001
---	500mm (20")	785gms	220002
---	500mm (20")	815gms	220002S
Thin Cross Sectional thickness of 7mm	500mm (20")	640gms	225001
---	500mm (20")	800gms	225101
Run Flat	500mm (20")	820gms	225201

Material : Forged Chrome Vanadium Steel, hardened & tempered.

Finish : Sand Blasted surface with Nickel Chrome Plating.

Use : Used for Passenger Car tyre service.

11 Tyre Lever

Size:	Weight:	Code No.
600mm (24")	930gms	220008

Material : Forged Chrome Vanadium Steel, hardened & tempered.

Finish : Sand Blasted surface with Nickel Chrome Plating.

12 Run Flat Lever

Size:	Weight:	Code No.
600mm (24")	865gms	226001

Material : Forged Chrome Vanadium Steel, hardened & tempered.

Finish : Sand Blasted surface with Nickel Chrome Plating.

13 Truck Tyre Lever with Crank End

Size:	Weight:	Code No.
610mm (24")	1.360kg	220003

Material : Forged Chrome Vanadium Steel, hardened & tempered.

Finish : Sand Blasted surface with Nickel Chrome Plating.

Use : Suitable for LCV, Trucks and large wheels, this tyre lever is extra heavy duty with crank end.

14 Lever for Removal of Locking Rings

Size:	Weight:	Code No.
470mm (18")	720gms	2200012

Material : Forged Chrome Vanadium Steel, hardened & tempered.

Finish : Sand Blasted surface with Nickel Chrome Plating.

Use : To remove locking rings of tube type tyres.

15 Rim Straightener Lever

Size:	Weight:	Code No.
390mm (15")	500gms	220274

Material : Special Steel.

Finish : Sand Blasted surface with Nickel Chrome Plating.

Use : Used for repairing of deformation on the rim flange.

16 Tubeless Truck Tyre Lever with Hook

Size:	Weight:	Code No.
675mm (26.6")	1.550kg	220284

Material : Forged Chrome Vanadium Steel.

Finish : Sand Blasted surface with Nickel Chrome Plating.

Use : Used for mounting on wide base rims.

17 Wheel Flange Loosener

Dia:	Size:	Weight:	Code No.
32mm	300mm long	2.060kg	220204

Material : Forged CV Steel, hardened & tempered. Black colour.

Use : Used for loosening rusted Truck and Bus Beads. Speeds up Truck tyre repair work and saves labour and time.

18 Wheel Flange Loosener with Plastic Hand Protection

Dia:	Colour:	Size:	Weight:	Code No.
32mm	Red	330mmx93mm	1.850kg	2202045
32mm	Blue	330mmx93mm	1.850kg	2202045S

Material : Forged CV Steel, hardened & tempered.

Finish : Sand Blasted surface with Nickel Chrome Plating.

Use : Used to loosen rusted Truck and Bus Beads. Speeds up Truck tyre repair work. Easy to handle.

19 Lever for Tube & Tubeless Truck Tyres

Size:	Weight:	Code No.
255mm long	500gms	220304

Material : Forged CV Steel, hardened & tempered. Black colour.

20 Special Lever for Motorcycle Tyres

Size:	Weight:	Code No.
390mm long	540gms	220154

Material : Forged CV Steel, hardened & tempered. Black colour.

21 Lever for Tubeless Tyres for Passenger Cars

Size:	Weight:	Code No.
390mm long	565gms	220164

Material : Forged CV Steel, hardened & tempered. Black colour.

22 Lever for Tube and Tubeless Truck Tyres

Size:	Weight:	Code No.
420mm long	810gms	220214

Material : Forged CV Steel, hardened & tempered. Black colour.

23 Lever for Tube and Tubeless Truck Tyres - mounted on Flat Rims

Size:	Weight:	Code No.
460mm long	1.050kg	220194

Material : Forged CV Steel, hardened & tempered. Black colour.

24 Lever for small size Tubeless Truck & Tractor Tyres - mounted on Drop-Centre Rims

Size:	Weight:	Code No.
530mm long	1.050kg	220174

Material : Forged CV Steel, hardened & tempered. Black colour.

25 Lever for big size Tubeless Truck & Tractor Tyres - mounted on Drop-Centre Rims

Size:	Weight:	Code No.
760mm long	1.630kg	220184

Material : Forged CV Steel, hardened & tempered. Black colour.

26 Lever for Tubeless Truck Tyre - mounted on 15° drop-centre rims

Size:	Weight:	Code No.
800mm long	1.950kg	220004

Material : Forged CV Steel, hardened & tempered. Black colour.

27 Lever for Lug Base and Earthmover Tyres - mounted on Drop-Centre Rims

Size:	Weight:	Code No.
940mm long	2.180kg	220244

Material : Forged CV Steel, hardened & tempered. Black colour.

28 Lever for Earthmover Tyres

Size:	Weight:	Code No.
965mm long	2.780kg	220234

Material : Forged CV Steel, hardened & tempered. Black colour.

29 Lever for Truck, Tractor / OTR Tyres

Size:	Weight:	Code No.
1400mm long	11.300kg	220224

30 Tyre Mount/Demount Iron for Small Tyres

Size:	Weight:	Code No.
420mm long	750gms	220034

Material : Forged CV Steel, hardened & tempered. Black colour.

Use : Used in pair to Mount/Demount small Passenger Car, Industrial, ATV and Motorcycle tyres.

31 Tyre Mount/Demount Spoon Drop Center

Size:	Weight:	Code No.
460mm long	890gms	220054

Material : Forged CV Steel, hardened & tempered. Black colour.

Use : Used to Mount/Demount Passenger Car, Motorcycle ATV and Light Truck tyres.

32 Rim Lock Tool

Size:	Weight:	Code No.
460mm long	810gms	220084

Material : Forged CV Steel, hardened & tempered. Black colour.

Use : Used for servicing 5° wide base rim.

33 Special Lever for Mercedes Car

Size:	Weight:	Code No.
560mm long	1.470kg	220254

Use : A special tyre lever used for Mercedes Car.

34 Tyre Mount/Demount Spoon

Type:	Size:	Weight:	Code No.
Curved	760mm long	1.470kg	220014
Straight	760mm long	1.475kg	220024

Material : Forged CV Steel, hardened & tempered. Black colour.

Use : Designed for easy and fast tyre changing. Used to provide good strength & leverage to work with large Trucks, Buses, Off Road vehicles, Tractors & Air Craft tyres.

35 Swan Neck Leverage Bar

Size:	Weight:	Code No.
760mm long	2.400kg	220094

Material : Forged CV Steel, hardened & tempered. Black colour.

Use : Used to remove frozen or rusted beads from all types of Truck / Farm / OTR rims.

36 Heavy Duty Lock Ring Tool

Size:	Weight:	Code No.
900mm long	1.900kg	220264

Use : Used for multi-piece wheels especially hub type.

37 Tubeless Tyre Straight Mount/Demount Iron

Size:	Weight:	Code No.
910mm long	2.000kg	220104

Material : Forged CV Steel, hardened & tempered. Black colour.

Use : Used for a variety of tyre changing applications.

38 Impact Bead Breaker

Size:	Weight:	Code No.
1170mm-1830mm long	6.500kg	220124

Material : Steel Pipe. Black colour.

Use : Used to easily loosen beads of the tyre with bead-breaking foot and ram bar but never cuts the bead of the tyre.

39 Impact Bead Breaker

Size:	Weight:	Code No.
1270mm-2030mm long	10.500kg	220134

Material : Steel Pipe. Black colour.

Use : Used to easily loosen beads of the tyre with bead-breaking foot and ram bar but never cuts the bead of the tyre.

40 Heavy Duty Mounting Lever for Tubeless Truck/Bus Tyre

Size:	Weight:	Code No.
1210mm long	3.400kg	220814

Material : Steel Pipe. Black colour.

Use : Used to easily loosen beads of the tyre with bead-breaking foot & ram bar but never cuts the bead of the tyre. Gives more leverage when mounting in a horizontal position on the ground.

**41 Trilex Lever for Tubeless Truck/ Bus Tyre**

Size: 1045mm long
Weight: 3.200kg

Code No.
221314

Material : CV Steel and Steel Pipe.

Use : A double mounting lever for 3 piece rims.

42 Demounting Lever for Tubeless Truck/ Bus Tyre

Size: 1780mm long
Weight: 6.500kg

Code No.
220314

Material : Casting and Steel Pipe.

43 Mounting Lever for Tubeless Truck/ Bus Tyre

Size: 1050mm long
Weight: 2.600kg

Code No.
220414

Material : Casting and Steel Pipe.

44 Mounting Lever for Tubeless Truck/ Bus Tyre

Size: 1040mm long
Weight: 2.950kg

Code No.
220514

Material : Casting and Steel Pipe. Powder Coating.

Use : This mounting lever is ideal for Aluminum rims.

45 Demounting Lever for Tubeless Truck/ Bus Tyre

Size: 1610mm long
Weight: 10.100kg

Code No.
220614

Material : Casting and Steel Pipe. Powder Coating.

Use : This demounting lever is ideal for Aluminum rims.

46 Demounting Lever for 17.5" Tubeless Truck/ Bus Tyre

Size: 1500mm long
Weight: 6.500kg

Code No.
221414

Material : Special Steel Casting. Powder Coating.

Use : Specialized lever for demounting 17.5" Truck / Bus tyre.

47 Rim Lock Ring Removal Tool

Size: 1050mm long
Weight: 3.500kg

Code No.
220914

Material : Casting and Steel Pipe. Powder Coating.

Use : Specialized wrench to remove single lock rings of Truck / Bus tyre rims after bead breaking.

48 Rim Lock Ring Fitting Tool

Size: 1230mm long
Weight: 2.950kg

Code No.
221014

Material : Forged CV Steel, hardened & tempered.

Use : Specialized wrench to fit rings of Truck / Bus tyre rims. Used in pair.

49 Wheel Cover Puller/Replacer

Size: 350mm long
452mm long
Weight: 610gms
820gms

Code No.
220011
220211

Material : Steel Rod.

Use : Removes wheel covers quickly and easily without damaging or scratching them. Rubber head prevents damage to the hub cap and is replaceable.

50 Rubber Mallet

Size: 420mm long
300mm long
Weight: 480gms
1.200kg

Code No.
220420
220430

Use : Rubber Head Mallet prevents damage to the rim surface.

51 Pump Ring Rigid for Tubeless Truck Tyre

Size: 22.5"

62 220203 MOTORCYCLE TOOL KIT

62 Mount/Demount Tool Kit for Motorcycle Tyre

Weight: 3.850kg
Code No. 220203

The Kit contains the following items:

Tool:	Qty:	Weight:	Code No.
• Bag	1 No.	315gms	220302
• Tyre Lever	3 No.	375gms	220404
• Ventifix with revolving Nozzle	1 No.	85gms	330043
• Sarv Paste (Economy)	1 No.	1.000kg	2200130
• Brush	1 No.	80gms	220515
• Rubber Mallet	1 No.	1.200kg	220430
• Valve Core Screw Driver	1 No.	25gms	330002
• Duster	1 No.	15gms	D0015

63 220403 STANDARD TOOL KIT

63 Tubeless Tyre Mount/Demount Standard ToolKit

Weight: 22.170kg
Code No. 220403

The Kit contains the following items:

Tool:	Qty:	Weight:	Code No.
• Bag with Wheels (optional)	1 No.	4.600kg	220412
• Tyre Lever	2 No.	1.950kg	220004
• Tyre Lever	1 No.	1.630kg	220184
• Impact Bead Breaker	1 No.	10.500kg	220134
• Bead Holding Tool	1 No.	350gms	220400
• Valve Core Screw Driver	1 No.	25gms	330002
• Sarv Paste (Economy)	1 No.	1.000kg	2200130
• Brush for Truck Tyre	1 No.	150gms	220415
• Duster	1 No.	15gms	D0015

Use : Mounts / Demounts all types of tubeless tyres 17.5" to 24.5".

64 220503 REGULAR TOOL KIT

64 Tubeless Tyre Mount/Demount Regular Tool Kit

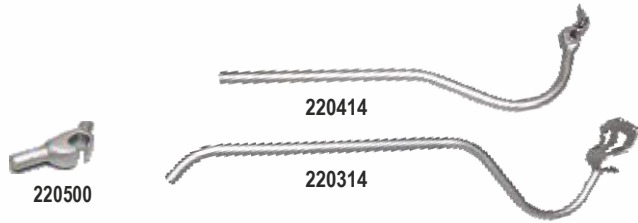

Weight: 25.435kg
Code No. 220503

The Kit contains the following items:

Tool:	Qty:	Weight:	Code No.
• Bag with Wheels (optional)	1 No.	4.600kg	220412
• Mounting lever	1 No.	2.600kg	220414
• Demounting Lever	1 No.	6.500kg	220314
• Impact Bead Breaker	1 No.	10.500kg	220134
• Bead Holding Tool	1 No.	770gms	220500
• Valve Core Screw Driver	1 No.	25gms	330002
• Sarv Paste (Economy)	1 No.	1.000kg	2200130
• Brush for Truck Tyre	1 No.	150gms	220415
• Duster	1 No.	15gms	D0015

Use : Mounts all type of tubeless tyres 20" to 24.5". Demounts tyre in 8 seconds and remounts in 20 seconds. Works on standard and super single duplex tyres.

65 221503 REGULAR TOOL KIT

65 Tubeless Tyre Mount/Demount Regular Tool Kit

Weight: 9.870kg
Code No. 221503

The Kit contains the following items:

Tool:	Qty:	Weight:	Code No.

28mm	215gms	221918

Material : Made from Special Blended Nylon Plastic (Nylon 66).
Use : Wearing Mount/Demount Tool Head protects tyre & rim from metal to metal contact damage. Using Plastic Mount/Demount Tool Head is much safer for delicate and expensive wheels yet durable enough to withstand the stress of larger tyres and wheels.
Note : The Consumable Plastic part 221418RS can be used on the Plastic Mount/Demount tools 221418 and 222118.

5 Wide Tool Head for Lever less Tyre Changers

22 Bead Removal Tool for Lever Less Tyre Changing Machines

Colour:	Weight:	Code No.
Yellow	60gms	221048
Red	60gms	221048R

Material : Engineering Plastic. Glass filled for good strength and durability.

23 Rubber Tulip Pad

Colour:	Weight:	Code No.
Black	155gms	221548

Use : Mounted at the end of the arms that clamps the rim and prevent damage to the rim while providing grip to rotate the rim.

24 External Rubber Clamping Jaw

Colour:	Weight:	Code No.
Black	536gms	221648

Use : They work with machine which have hollow center of the tulip arms. If there is no hole on the top of the arms then these are not right parts to use.

25 Support Plate Cover

Colour:	Dia:	Weight:	Code No.
Black	240mm	149gms	221748

Material : Rubber.

Use : It protects the rim while servicing the reverse wheels. Should be removed if not servicing the reverse wheels.

26 Feeler Pin

Colour:	Size:	Weight:	Code No.
Grey	150mm long	20gms	221848

Material : Special Plastic.

27 Bead Breaker Blade Protection

Weight:	Code No.	Weight:	Code No.

29 Clamping Jaws for Passenger Car Tyre Changers

Weight:	Code No.
115gms	2200021
180gms	2201621

Material : Made from Special Steel, hardened and tempered for longer life and durability.

Use : Four Jaws are required per machine for keeping the Jaw alignment even.

30 Clamping Jaws for Passenger Car Tyre Changers

Weight:	Code No.
230gms	2200421
230gms	2200521

Material : Special Carbon Steel, hardened and tempered for longer life and durability.

Use : Four Jaws are required per machine for keeping the Jaw alignment even.

31 Jaw Guide

Weight:	Code No.
650gms	2201121

Material : CRC Sheet.

Use : Used in a set of four pieces to increase or decrease the rim clamping size.

32 Motor Cycle Adaptor Kit

Size:	Weight:	Code No.
120mm x 50mm	915gms	220039

Material : CRC Sheet.

Use : The kit of 4 Clamps and protectors fits most rim clamp tire changers. Allows standard Tire Changing Machine to grip Motorcycle wheels. Lifts spoked wheels away from Turn Table. Easy to set up and remove.

33 Screw Knob

Weight:	Code No.
270gms	220688

Use : Used for arm adjusting for Passenger Car Tyre Changers.

34 Scissor

Dia:	Weight:	Code No.
65mm	3.000kg	220088

Material : CRC Sheet.

Use : Used for the movement of the Jaws on the Turn Table.

Use : Used to lubricate tyre beads while removing or mounting tyres on rims.

51 Tyre Mounting Aid

Weight: 310gms	Code No. 2200011
----------------	------------------

Material : Nylon-6

Use : Holds tyre bead below the rim flange for fast and damage free tyre mounting. Fits on all Passenger Car rims. Will not scratch decorative/Aluminum rims.

52 Tyre Mounting Aid (Supplied with Base 3)

Weight: 385gms	Code No. 2200311
----------------	------------------

Material : Nylon-6

Use : Holds tyre bead below the rim flange for fast and damage free tyre mounting. Fits on all Passenger Car rims. Will not scratch decorative/Aluminum rims.

Base : For Tyre Mounting Aid 2200311

Base 3 :	Size: 20mm	Weight: 85gms	Code No. 2200311C
----------	------------	---------------	-------------------

53 Tyre Mounting Aid

Weight: 300gms	Code No. 2200211
----------------	------------------

Material : Nylon-6

Use : Holds tyre bead below the rim flange for fast and damage free tyre mounting. Fits on all Passenger Car rims. Will not scratch decorative/Aluminum rims.

Base : For Tyre Mounting Aid 2200211 (optional)

	Size:	Weight:	Code No.
Base 1 :	44mm	165gms	2200211A
Base 2 :	20mm	80gms	2200211B

Use : Base 1 and Base 2 are used for increasing the base height and are optional to use.

54 Rim Clamp for Truck Tyre Changers

Weight: 1.600kg	Code No. 2200013
-----------------	------------------

Material : Special Steel Chrome plated to prevent corrosion.

Use : Clamps on wheel to prevent tyres from slipping.

55 Rim Clamp for Truck Tyre Changers

Weight: 1.750kg	Code No. 2200113
-----------------	------------------

Material : Special Steel Chrome plated to prevent corrosion.

Use : Clamps on wheel to prevent tyres from slipping.

56 Rim Clamp for Tubeless Truck Alloy Rims

Weight: 1.700kg	Code No. 2200313
-----------------	------------------

Material : Special Steel Chrome Plated to prevent corrosion.

Use : Clamps on wheel to prevent tyres from slipping.

57 Truck Tyre Bead Holder

Weight: 95gms	Code No. 220213
---------------	-----------------

Material : Made from indestructible Polymers Nylon-66.

Use : Keeps Truck tyre bead from slipping during mounting of top bead. Two bead holders are used simultaneously. No need to stand on tyre to mount.

58 Truck Tyre Bead Holder

Material:	Weight:	Code No.
CRC Sheet	350gms	220400
MS Casting	770gms	220500
MS Casting	250gms	220513

Use : The bead holder locks onto the flange of the wheel and holds tyre bead in place to eliminate standing on the tyre or changing the bead around the wheel.

11 Ventifix Plastic

Colour:	Weight:	Code No.
Green	75gms	330003
Blue	75gms	330003BLU

Material : Polyamide-6 for imparting super bending strength to the lever.

Finish : All metal parts are Nickel Chrome Plated.

Use : For mounting Rubber snap-in valves on Passenger Car. Protects light metal alloy rims from scratch.

12 Ventifix Plastic with Revolving Nozzle

Colour:	Weight:	Code No.
Red	85gms	330043

Material : Polyamide-6 for imparting super bending strength to the lever.

Use : For removing tubeless Motorcycle valves.

13 Ventifix Plastic with Valve Core Screw Driver at End

Colour:	Weight:	Code No.
Green	75gms	330073

Material : Polyamide-6 for imparting super bending strength to the lever.

Use : For mounting Rubber snap-in valves on Passenger Car & to open valve core screw.

14 Ventifix Steel

Colour:	Material:	Weight:	Code No.
Silver	Carbon Steel	300gms	330004
Silver	Steel Sheet	150gms	330024

Use : Ruggedly constructed Steel tool is designed to provide sure grip and leverage necessary for positioning seating or removal of snap-in type valves. Deep thread head assures ease of valve stem attachment.

15 Ventifix Aluminum

Colour:	Weight:	Code No.
Golden	242gms	330083

Use : Specially designed tool for insertion / remove of all kind of valves. Suitable for TPMS valves. The Rubber and Nylon pad prevents scratching of the wheel rim.

16 Ventifix Plastic (Heavy Duty)

Colour:	Weight:	Code No.
Red	95gms	330023
Black	95gms	3300123
Yellow	95gms	3300223

Material : Polyamide-6 for imparting super bending strength to the lever.

Use : For mounting Rubber snap-in valves on Passenger Car & to open valve core screw. Multiple ridges help keep the tool in place on wheels with different sizes.

17 Valve Extension Holder-Double Strip Type

Colour:	Size:	Weight:	Code No.
Golden	8mm	35gms	330007

Material : Carbon Steel and Spring Steel Wire.

Finish : Zinc Plated.

18 Valve Extension Holder-Double Clip Type

Colour:	Size:	Weight:	Code No.
Golden	16mm	60gms	330008

Material : Carbon Steel and Spring Steel Wire.

Finish : Zinc Plated.

19 Valve Extension Holder-Single Clip Type

Colour:	Size:	Weight:	Code No.
Golden	16mm	55gms	330009
Golden	26mm	60gms	330029

Material : Carbon Steel and Spring Steel Wire.

Finish : Zinc Plated.

Use : To secure position of flexible valve extensions.

**20 Valve Core Screw Driver**

Size:	Weight:	Code No.
1"	15gms	3300021
2"	40gms	3300061
4"	42gms	3300041
5"	45gms	3300051
10"	60gms	3300101

Material : Carbon Steel with Aluminum handle.

21 Valve Core Screw Driver Flexible

Size:	Weight:	Code No.
6"	46gms	3300611
8"	60gms	3300011
10"	65gms	3301011

Material : Carbon Steel and flexible Steel Wire rope with Aluminum handle.

Use : This Valve Core Screw Driver holds the valve core with a clip. Also the fitting / removing of valve cores is much easier.

22 Valve Core Screw Driver with Magnet

Size:	Weight:	Code No.
4"	45gms	3300541

Material : Carbon Steel. Magnet on the top of handle provides easy picking of valve core.

23 Valve Core Screw Driver For OTR Tyres

Size:	Weight:	Code No.
4"	100gms	3300441

Material : Carbon Steel with Aluminum handle.

24 Valve Cap Screw Driver For OTR Tyres

Weight:	Code No.
120gms	3300641

Material : Special Steel.

25 Tubeless Valve Stem Puller

Colour:	Handle Material:	Weight:	Code No.
Red	Aluminum	150gms	330006
Black	Steel	265gms	330026
Blue	Steel	310gms	330036
Black	Steel	275gms	330046
Green	Steel	275gms	330056

Use : Installs and removes tubeless valves in seconds and protects the expensive alloy rim from scratch. Metal tip helps push out old snap in valve. All handles are PVC coated for hand protection.

26 Tubeless Valve Stem Puller (Heavy Duty)

Weight:	Code No.
400gms	3300018

Material : Made out of Carbon Steel Strip.

Finish : Nickel/Zinc plated to prevent rusting.

Use : Heavy duty Pull a Stem Tool to pull old or insert new tubeless Rubber valve of all sizes.

27 Heavy Duty 4 Way Valve Core Repair Tool

Finish:	Material:	Weight:	Code No.
Auto black	Carbon Steel	25gms	3300115
Zinc plated	Special Steel	20gms	3300116

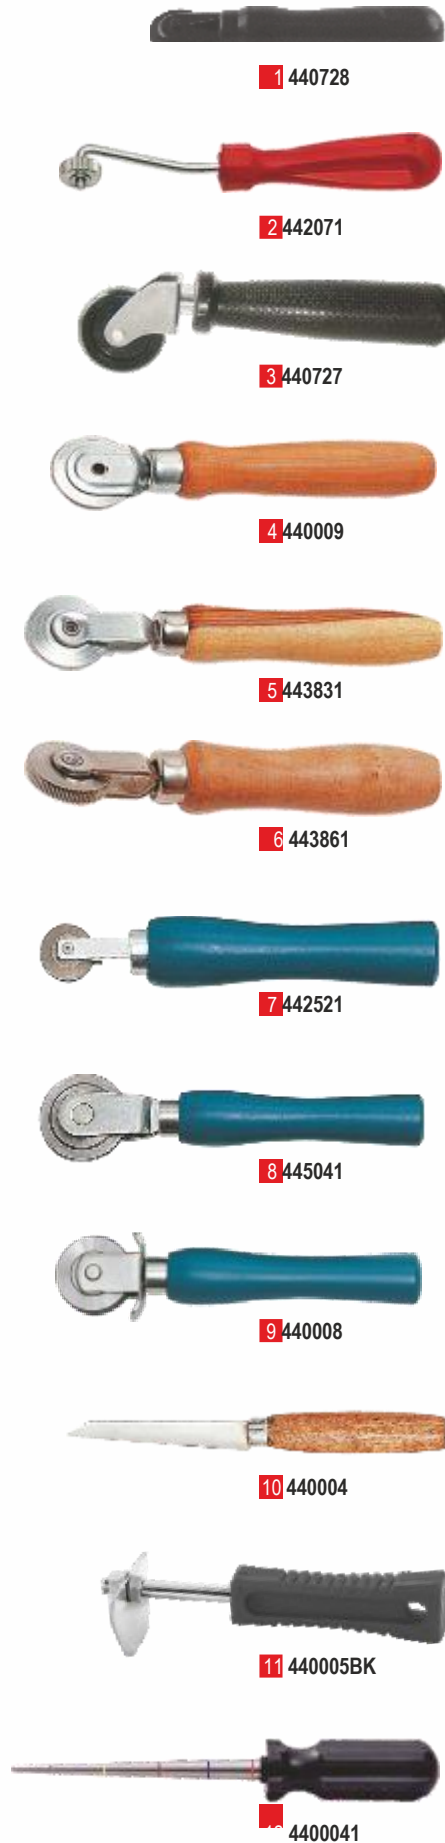

Use : Repairs and reconditions inside and outside Valve threads and removes broken cores.

27 3300115

27 3300116

64mm	115mm	10mm	55gms	4401017
72mm	120mm	13mm	95gms	4401317

Use : For the precise injury preparation on radial and cross-ply tires.

15 Milling Cutter in Screw Driver Handle

Blade Length:	Dia:	Weight:	Code No.
50mm	6mm	30gms	4403617
45mm	6mm	30gms	4404617

Material : High Speed Steel.

Use : The screw driver handle encloses the Angular Milling Cutter to be used manually.

Note : Angular Milling Cutter 4402617 is used in code No. 4403617.
Angular Milling Cutter 4400617 is used in code No. 4404617.

16 Marking Chalk

Colour:	Size:	Box Weight:	Code No.
White	80mm long	160gms	TMCHALKW
Yellow	80mm long	160gms	TMCHALKY

Note : 10 pieces packed in one box.

17 Rasp

Blade Length:	Dia:	Weight:	Code No.
40mm	38mm	48gms	440627

Use : Used to remove & grind away ribs inside the tyre prior to puncture repair.

18 Tyre Spreader

Length:	Weight:	Code No.
235mm	55gms	4400320
330mm	90gms	4400420

Material : Plastic.

Use : Used in pair to open the beads of tyre.

19 Tyre Bench Spreader

Size:	Weight:	Code No.
L-431mm, W-101mm, H-101mm	3.600kg	4400020
L-457mm, W-127mm, H-254mm	5.600kg	4400120

Material : CRC Steel.

Use : Tyre spreader is used for preparing the inspection and repair of Car and Truck tyres.

20 Tyre Bench Spreader

Size:	Weight:	Code No.
L-600mm, W-290mm, H-250mm	6.500kg	4400220

Material : CRC Steel.

Use : Holds the tube & provides a smooth base for processing. Spreads Car & Motorcycle tyres. Can be mounted on work bench. Suitable for very long stiff beads. High stability and strength.
